ARTISTS WANTED

Section Devoted to Athletics Is New Feature

At a short meeting of the Annual Board, held last night, several tenders from various printing firms were received, but owing to the fact that all of these tenders were not in nothing could be done; however, the matter of letting the tender will be definitely decided at a meeting of the board to be held next Tuesday afternoon at 5:15 in the Annual Board room.

Today is the last day that students will have to subscribe for the 1924 Annual as the subscription lists are closing today. Absolutely no books will be printed except those actually subscribed for. The book this year will be well worth while, according to all reports. Several pages are being devoted to Athletics, thus following the example of the college Annuals published at American universities. The printed matter on Athletics will be interspersed with pictures of various players on the teams and several very interesting pictures of Rugby plays in the games last fall have been secured. Ross Wilson is in charge of this section of the book.

The Art Editor reports that the sketches for the book are not coming in as fast as they should and that the quality of the work coming in is not up to the standard set by this year's board. There remains but five more days before the Christmas vacation—the co-operation of all students is especially requested as absolutely all the material for the book must be in by Thursday next.

The photographic editor reports that students are not taking their proofs back to Notman's. This must be done at once. If left until after the vacation it will be impossible to publish (Continued on Page Two)

OFFER TO GOVERNORS

Would Start Campaign to Raise Funds for Dormitory

An offer to stage a campaign to raise the necessary funds for the building of a gymnasium-dormitory building on the Stadium site was made by the Students' Council yesterday afternoon at the meeting held in the Union. The Council passed a motion instructing the secretary to make a request to the Governors asking just what funds had been gathered so far from the bequests, donations and ear-marked cheques in the last financial campaign for the gymnasium and dormitories, and getting an estimate of the additional amount required to make it possible to build the structure. If the Governors grant permission to stage the campaign it is likely that the whole student body will be gathered together in a combined drive to secure the funds.

There was an unusually large amount of business handled by the meeting, which was the last one scheduled to take place before the end of the year. The new members of the Council were present and were introduced to the present and retiring members.

According to a ruling made by the Council yesterday all of the clubs and societies desiring to stage events during the rest of the year will have to do so in concurrence with a schedule committee which has been appointed. A meeting of the committee will be held shortly after the opening of the college in the New Year and every club and society wishing to secure dates during the remainder of the year will have to make application then in order to definitely secure them. Events which are necessarily scheduled later in the year will have to be given to the secretary of the Students' Council as early as possible in order.

LAST DANCE OF THE YEAR FILLS UNION

Large Numbers Dance to Excellent Music

MANY ATTEND

Capacity Crowd at Closing Social Function of 1922

Coming as a wind-up to the University social activities for the season before Christmas, the Union Informal last night left nothing at all to be desired in the way of enjoyment. The arrangements were the same as those obtaining at all those Informal dances and were carried out according to the usual standard set by the Union House Committee. The University Dance Orchestra supplied their usual excellent brand of jazz, about which no comment is needed.

The patrons and patronesses of the evening were Professor and Mrs. Caruthers and Miss Smellie. Among those present were: The Misses Grace Gillson, Mary McPhail, Amy Macfarlane, Dot Scott, Doris Veira, G. Callaghan, Marion Brown, Doris Atkinson, Alice Jamieson, K. Nichol, A. Taylor, V. Henry, A. Martineau, Lydia Silver, Florence Featherston, Betty Gordon, Katherine Wilson, Gwen Ewing, Laura Stone, K. Tigh, Jean Wadsworth, Dolly Slater, Dot Kenrick, Dorothy Weir, E. Hird, Mrs. E. B. CHURCH SERVICE AT STRATHCONA

Student to Conduct Service on Sunday Morning

The second University Church Service of the session will be held in Strathcona Hall on Sunday morning at eleven o'clock. Those in charge are attempting what is a new departure at McGill. A number of these services have been held in the last two years and all have been well attended and successful from every point of view.

Speakers of repute such as J. H. Oldham, of England, Dr. Geo. Pidgeon, of Toronto, Canon Shattford and Dr. Roberts of Montreal, have contributed a share to the religious thought of our community through the medium of University Church Services.

Members of the staff, Sir Arthur Currie, Dean Laing, Principals Rexford and Fraser, of the Theological faculty, have given the benefit of their prestige and experience to these meetings in the past. To-morrow's service will, however, be different from any former such in several respects. It has been thought that with many students in the University whose earnestness in religious thinking an ability for expression is unquestioned, there is no reason why men and women of McGill should not have a church service of their own conducted by themselves.

So it is, that on Sunday morning, a service, student in every respect, will be held. It will be conducted by Duncan Livingstone, Theol. '24. A part will be in the hands of Miss Zeroda Slack, R.V.C. '23, and the sermon will be given by H. Wells, of Arts '23. It is expected that several members of the Glee Club will be present to render several selections.

OPTIMISM

Man is essentially optimistic. Perhaps that is the reason that he has divided time into years, and celebrates the beginning of each of these periods with intense ardour, observes the date so set aside for the formation of new resolves, and looks forward to the approaching era in anticipation that it will provide what that past has lacked, and afford him what in the succeeding year he missed. It is this idea of commencing anew in the expectation that what is to come will exceed in benefits that which has passed away that is common to all of us. That this is the feature of the New Year that is the most attractive to the average individual, is a statement which, we believe, requires no reiteration to assert its justification. In this respect the student certainly does not differ from the mass—to him mention of the New Year conjured up visions of a few days spent under the friendly shelter of the family roof, though the glamour may be dimmed somewhat by the shadow cast by the proximity of the Mid-Terms to his return; but above all it forces upon his mind the impression that what he has done wrong in the past will be rectified by his efforts in the future.

To undergraduates of McGill thoughts of the coming sessions hold possibilities more varied and more relevant to their needs, we feel, than the mention of the same may bring to the minds of students in some other colleges. Next Year—the interval during which those now Freshmen will become Sophomores and those now Seniors will become men of the business and professional world; the interval within which losses will be recouped and replaced by advancements; the interval within which—who knows?—definite plans may be laid for the erection of the long contemplated, much discussed and recently postponed programme for the erection of a Gymnasium and Dormitories at the University. If McGill could look forward to the New Year with the assurance that it would see the completion of the scheme of buildings mooted in the financial campaign of two years ago; if at the end of this same New Year we could regard with satisfaction the place filled by these institutions in our college life, then, indeed, the year upon which we are about to enter would be one of epoch-making significance and the endeavours of those which had effected the fruition of the programme worthy of remembrance along with the names of the University's greatest benefactors.

AN APPRECIATION

After a year of genuine accomplishment half of those upon the present Students' Council are to depart from its deliberations. The representatives that have upheld the interests of their individual faculties and helped to guide the policy of the Students' Society since last January will give way to those recently elected to replace them. It is no forced expression of the sentiment about college to state that the present Council is one that has held the confidence of the students in a degree that could not well be exceeded and while the graduation of the older men from the university and from the Council will be severely felt the foundation that they have made and the principles to which they have adhered will serve as effective reminders to their followers of the men that have gone before.

INDIAN COLLEGES TO BE ORGANIZED

Educational Institutions Are Much in Public Eye.

University topics hold a prominent position in India at the present moment. The Lucknow University has been instituted, that at Allahabad reformed, and an angry controversy is proceeding between the Government of Bengal and the Senate of the Calcutta University concerning the insolvency and the conditions of assistance. The Senate has declared that it would be a danger to the cause of education were the Government to proceed with the measure which it has not thoroughly examined from the university point of view, or by possibly departing from the chief recommendations of the Sadler commission that there should be two government bodies of the universities, one academic, one administrative, and that a democratic basis should be fully introduced later.

The Senate protested against the Sadler proposals being dropped on account of the financial embarrassment of the university. Much ill-feeling has been created because recently the Bengalee, the moderate Indian journal of Calcutta, republished a critical article from the educational supplement of The Times of London. The article was, of course, available to any journal to reprint, but it seems that the publicity officer in Bengal requested the Bengalee to republish the Times' criticism.

The department's action is considered ill-advised, but generally speaking, the university is far too sensitive of criticism considering their appalling misunderstanding of their finances. The bill before the Legislative Council of Madras explains that the object of the bill is to reform the University of Madras. The bill seems based on the best fea-

tures in the universities of London, Dacca and Allahabad.

The university will remain the examining body for three-quarters of the 57 country colleges affiliated to it, but the connections between the university and the 12 colleges in and near Madras are made much closer. The university already has a fairly close control over the latter, but hostel life will be greatly developed, so as to encourage the academic atmosphere. A large elective element is to be introduced into the composition of the Senate; Government control is generally to be abolished, and reduced even in finance. The annual grant of three lakhs is proposed, and provision is made for the provincial finances to bear the cost of the university expansion.

NOTICES

R. V. C. '25.

A meeting of R. V. C. '25 was held yesterday afternoon for the purpose of electing a class representative to the National Conference of the S.C.A. Miss Laura Chalk was unanimously elected. The members of the Class were again requested to bring their money for class pins and rings, to Miss Virginia Cameron without further delay.

R. V. C. IMPORTANT.

The "Annual" Subscription lists are to be handed in on Monday, so will every one please sign up immediately, if they wish an "Annual."

MECHANICAL CLUB.

It is uncertain whether permission can be obtained to visit the Angus Shops on Wednesday, Dec. 20th. At the best the permit will strictly limit the number of visitors. Anyone who is really keen on this trip should get in touch with T. M. Godet, 1st Year Representative (Section A, Sci. '26). Remember that this trip will have to be arranged on the basis of "First Come, first served."

CONSERVATORIUM OF MUSIC.

As the pictures taken last week for the Annual were a failure, they will be retaken this morning, at 1 o'clock, on the steps of the Conservatorium.

FROSH-SOPH. BASKETBALL.

The second game in this league will take place to-night at 6 p.m. between second year Commerce and second year Science in Molson Hall. Both teams must report promptly.

Rayphones have been designed to meet the exacting demands of the Marconi Wireless Telegraph Co. of Canada, Limited, for a portable, high quality, hand set for Long Range Radiophone Reception. They are manufactured in one style and resistance only—to ensure the best possible results under all conditions. Weak or strong signals are alike received with maximum audibility and clearness—free from distortion—whether used in conjunction with a valve or crystal receiver. Rayphones represent a new standard of sensitivity and are especially suitable for Multiple Reception—six or eight pairs may, with ease, be attached in series to one Receiver, without appreciable loss in signal strength. Only the highest grade materials are used in their construction. Despite the fact that Rayphones are now being manufactured on a scale hitherto unprecedented—which enables them to be sold at \$5.75 a set—each and every pair is scientifically tested before being shipped and is guaranteed to give satisfaction.

SPECIFICATION.
Head Bands and Equipment.—Made of specially tempered steel and covered with durable cord webbing. Correctly designed to the curvature of the head in order to ensure maximum comfort. Readily adjustable by means of a new device whereby the phones may be brought into correct position in relation to the ears and securely locked.

All metal parts are heavily nickel plated. Phones—Electrically and mechanically balanced to secure perfect reception in each ear-piece. The strong permanent magnets are of high grade carefully hardened steel and are designed to ensure correct spacing with respect to the diaphragms, which are of proper thickness and resilience. The electro-magnets are wound to a resistance of 2,000 ohms, which is the most effective for all kinds of radio reception, and permits of maximum audibility from both weak and strong signals. The pieces are of a special composition and are carefully designed for comfort.

Leads.—Six foot long. Made of selected copper, flex of minimum electrical resistance and maximum mechanical strength, heavily insulated and covered with webbed cord. The metal terminals are nickel-plated and securely attached.

Weight—Fourteen ounces.

FIRST GAME OF SEASON IN BOSTON

Team at Practice Shows Potent Possibilities

LEAVE ON 27th

Seniors Are Out on Campus at Three Today

Perhaps the most important athletic event during the Christmas vacation will be the three day trip to Boston by the McGill Hockey team. The Red and White will encounter a trio of American Colleges on the 28th, 29th and 30th of this month at the Boston Arena. The first of these games has been definitely arranged with the Boston College sextette, who bowed before the McGill skaters last year in a 4-0 contest. Who the other two opponents will be has not as yet been definitely announced, but it is probable that Massachusetts Institute of Technology and Boston University will oppose the invading Canadians.

Coach Shaughnessy's squad found little difficulty in vanquishing the Engineers last year, scattering them back in an 8 to 2 defeat, but this season M.I.T., under a new coach, seems to be a much stronger team and the local team will no doubt run up against some stiff opposition.

The make-up of the team is as yet nowhere near certain. The men have been working together less than a week, and "Shag" has not yet selected a permanent back before a definite line-up is announced.

But a number of candidates have been showing up to good advantage. In the goal-keeping department, there is a wealth of material, Morris, Moran, Timmins, Brewer and McColl are all showing more than average ability in front of the net, and it is as yet hard to say which will occupy the position when the season opens.

On the defence last year's combination of Dempsey and McGerrigle is on hand, but this due to being given a hard battle by Monroe a former "Varsity" man, and Hall, a Westerner.

There are a number of good wing-men to choose from. "Pinkie" Morrison is being used at center. Captain Cyril Flanagan, Lynch, Wyse and McNaughton are the other forwards who are performing well.

The men in their daily workouts are showing good skating ability and stick-handling, but are weak in shooting, and as yet have shown no good team work. The squad will need plenty of hard training before it can be considered a first rate outfit.

The squad of ten men which leaves for Boston on the evening of the 27th will probably be selected from the players mentioned above.

The team will work out on the campus rink today between the hours of 2 and 4.

TEAM GOES SOUTH FOR FIRST TRIP

University of Vermont to Be Met in Basketball

CHANCES GOOD

Will Open Season for Burlington Team

McGill will play the first game of college basketball for 1922-23 tonight when the Senior team meets the University of Vermont in Burlington. The Red and White team is this year one of the fastest moving outfits that has been sent out from the college. Although Manson is the only giant on the squad, the forwards are not only fast but deadly with their shooting. Little, who in the past has made a name for himself in the game, although slightly injured, should be able to display some of his talent. Mendelsohn, of last year's championship team, will put in his first appearance of the year. Amaron, also a forward, will be on the floor in a few points. The defence will be Hilton and Crain. This clever pair of guards are starting to work together and in a short time will be used to each other's playing. Crain is of last year's team and Hilton moved up from the Intermediates and has made a place on the team from which it will be hard to displace him. Blumenstein will also travel with the team and should be on the floor with the defence for part of the game.

This trip is the first of a series that are to be taken to the States this winter. The team will develop a playing strength that should enable them to retain the college honours which they now hold. In the last week of the month they are to play in Brooklyn, N.Y., against the Crescent A.A. and the St. Francis College A.A., and on the first of the month they meet the most powerful college team in the East. The game against the University of Pennsylvania should be one of the best exhibitions of the year. This team has been rated at the head of the Eastern colleges for some years and when they meet last year's Canadian champions the game is sure to be fast.

The basketball club under the management of T. W. Eadie and the coaching of Coach Van Wagner should make a successful trip to the States. They have played two games in the City League but were not forced in either of these so that their ability to come up from the bad end of the score is not as yet known. Last year they were able to win on pure stubbornness, winning most of their games in the last few minutes of play. This year if they develop a powerful team should represent the Red and White in the Intercollegiate games.

There is a City League game on Wednesday night that will give the followers of the team a final chance to see the team in action. They play the M.A.A.A., who were last year's runners-up in the city championships. The game will be played at the M.A.A.A.

CHEESE, CAKE AND COFFEE.

Last night I dreamt I died and found myself

A-floating on a fleecy cloud
Up towards the gates of heaven ('twas close on even)

And as I rushed up towards those pearly gates,
I often wondered what would be the rates

That I would have to pay
To gain admission.

(I hoped that there would be no war tax charged).

Then suddenly I found myself upon the step—outside—

And noticed that there were a mournful throng,
Who cried, alas, that they had got in wrong

With great St. Peter, keeper of the key,
And lo! they welcomed me with joyous shout,

And quickly then I recognized each one,
For they were members of a mighty cabinet,

Whose party tried, just for a slight experiment,
To pass a bill—one that was thrown out

By powerful Constitutionalists.
Then up arose the Minister of War,

(Around his head there shone a holy light),
And with a voice that roared a mighty roar

He said, "To heaven we go e'en though we fight."

So stepping up, I knocked upon the gate
And heard the key turn in the rusty lock—

For it had not been used for years and years—
And then old Bill led on his heavenly host,

For e'en the premier did not wish to roost,
And in we rushed.

Then as we floated up the heavenly way,
We heard sweet strains—yes, true, the Rooters' Band

Which played a song oft heard on solid land,
It sounded like, "Where Do We Go From Here?"

And mandolinists floated quickly by

SCHEDULE OF XMAS HOCKEY IS DRAWN UP

Six Teams Entered in the League

FIFTEEN GAMES

Teams to Be Picked Next Friday and Saturday

The Christmas Holiday Inter-faculty Hockey League schedule was drawn up at a meeting in the Union yesterday.

On a basis of the number of men signifying their intention to play, six teams were entered in the league as follows: Sc. I (First and Fourth Year Science); Sc. II (Second and Third Year Science); Med.; Arts; Commerce and Dents-Law.

The following schedule was drawn up; two games to be played on the McTavish street rink each day, and the other on the rink in the hollow.

The team supplying the referee is denoted in brackets.

Tuesday, December 26.

10-11: Med. vs. Dent. (Sc. I.)
11-12: Arts vs. Comm. (Med.)
11-12: Sc. I vs. Sc. II. (Dent.)

Hollow.

Thursday, December 28.

10-11: Sc. II vs. Comm. (Arts.)
10-11: Dent. vs. Sc. I. (Comm.)
11-12: Med. vs. Arts. (Sc. II.)

Hollow.

Saturday, Dec. 30.

10-11: Arts vs. Sc. I. (Dent.)
11-12: Comm. vs. Med. (Sci. I.)
11-12: Dent. vs. Sc. II. (Med.)

Hollow.

Tuesday, Jan. 2, 1923.

10-11: Dent. vs. Comm. (Arts.)
11-12: Sc. II vs. Arts. (Comm.)
11-12: Med. vs. Sc. I. (Arts.)

Hollow.

Wednesday, Jan. 3, 1923.

10-11: Med. vs. Sc. II. (Dent.)
11-12: Sc. I vs. Comm. (Med.)
11-12: Arts vs. Dent. (Sci. I.)

Hollow.

Sweaters will be supplied for the games on the McTavish rink, while the players will be forced to equip themselves on the hollow rink.

Goal keeper's equipment will also be supplied to each team; the faculty manager being held responsible for all equipment, and the appointment of referees.

All men must be medically examined before being allowed to play on any team. Managers are specially requested to see that all men obtain examination during the next week, so as to avoid any misunderstandings.

An opportunity will be given every man to play in this league. The teams to play in the league will be chosen at the practices. Each team will be provided with two practice hours, on Friday, Dec. 22nd, and Saturday, December 23rd, according to the following schedule:—

Friday, December 22.

10-11—Dent-Law.
11-12—Med.
12-1—Arts.

(Hollow):
10-11—Comm.
11-12—Sci. I.
12-1—Sci. II.

Saturday, December 23.

10-11—Comm.
11-12—Sci. I.
12-1—Sci. II.

(Hollow):
10-11—Dent-Law.
11-12—Med.
12-1—Arts.

With five games and two practices any man should be well satisfied with the amount of hockey provided. This is an excellent opportunity to enable a man to put himself in good condition.

An endeavour will be made to secure the Union for dressing and showers, but in the event of this failing Molson Hall will be at the disposal of players to dress and obtain a shower.

Should bad weather prevent the playing of any games, they will be played on the following day where possible, and if this is not feasible any games affecting the championship will be played at a later date to be arranged.

A win will count two points, and a tie game one point (no overtime being played in any games).

The team having the greatest number of points will be declared champions. In the event of a tie the play-off will take place after the re-opening of college.

While gleers from the Club sang melody,
And husky men kicked high a fleecy ball,

But, oh, alas, many an earthly friend
I did not see—what was their fate?
(Here the censor cut out fifty precious lines).

Then we were given crowns and harps—the best—
By ex-co-eds, yet some weren't there,
And just as we prepared for blissful rest
Our clouds began to fall with awful rate;
We lost our harps, our crowns, our robes of white.

While as for heat, my goodness, 'twas a fright.
The flames leapt round, and then an awful bump,
And I awoke.

Ah, for this fact there can be no amends,
For I was going to see a thousand of my friends.

WATER-POLO FINAL SENIORS VS. M.S.C.

Game for Dom. Championship Next Tuesday

The McGill Senior Water Polo team meets the M.S.C. Senior team Tuesday evening at 8:15 at the M.A.A.A. tank. The M.S.C. win over M.A.A.A. Thursday night made the standing of McGill and M.S.C. each won three but lost one. The Seniors have not given up practising and will this evening go through a strenuous workout, the last before the deciding game in the Canadian Aquatic Polo League. The winner of this game will gain the Dominion championship and the Goulde Cup. Coach Vernot is confident that his men will show up well and under his able coaching they will undoubtedly make a strong bid for a win. Grahame Brown will again be on the team, his reinstatement having been approved by the Department of Physical Education and with their invincible goal keeper back the team will play with great confidence. Grahame Brown will undoubtedly be an important factor on the team if he plays with the sure ease and precision which has characterized his performances in the past. Vernot, the Canadian champion, will be the one man on the team who above all M.S.C. will need to watch and he, with his weight and his speed, will take such watching. His partner, Jim Ross, has been improving all season and although he has played brilliantly in the games gone by it is expected that he will excel his past standard on Tuesday night. Laidley and Anson are a defensive pair who are full of pep. What Laidley lacks in weight he will make up in speed and tenacity, and what Anson lacks of his partner's speed he will make up in headwork and sure tackling. Bill Munro, who graduated from last year's Intermediates to Senior company, will play a defensive forward game, the job he has so well filled in the past. The tank will be specially aired and cooled before the game and accommodation will be provided for the largest number of spectators seen at an aquatic event yet. The men on the team have had a hard season and are now devoting time to hard practice which they should devote to study, so that they may make a good showing against their old rivals.

TO REGULATE DATES OF ACTIVITIES

(Continued from Page 1.)

der to be granted permission to use the date required.

The formation of a schedule committee has been made necessary by the fact that there have been several clashes of dates during the past few months which have often resulted disastrously to the attendance and financial success of the ventures. Under the new system two events that would interfere will not be allowed to occur at the same time. Clubs and societies not making application for dates will not be given the support of the Students' Council, the use of the Union, or of the columns of the college paper. The members of the schedule committee are D. B. Foss, President of the Athletic Association; B. C. Rochester, President of the Union; and J. L. O'Brien, President of the Daily.

A committee has been formed to look into the advisability of holding a theatre night at which the talent would be supplied entirely by the undergraduates. The meeting yesterday voted heartily in favor of the project if a theatre could be secured and plans will be gone ahead with immediately, if possible. It was pointed out that there was plenty of material among the undergraduates for the staging of the performance of the kind desired, and they felt sure that the co-operation of the Royal Victoria College and the McGill School of Physical Education could be secured in order to make the event one for the whole college. It is possible that the evening might be held in conjunction with the programme for the McGill winter carnival, but nothing can be settled until the possibility of securing a theatre in the central part of the city has been looked into.

A certain amount of investigation has been made in order to find the amount of talent available for such an occasion, and the result has been that everyone approached has seemed enthusiastic over the project. The musical and dramatic organizations will be asked to combine to make it a success, if it is finally decided to hold the performance and a chance will be given to everyone with talent to enter some part of the programme. The committee chosen to look into the matter is composed of Dave Johnson, Campbell Cope, Reg. Shatford and C. H. Fraser.

"My efforts are not altogether fruitless," said the comedian optimistically, as some one in the gallery crowned him with a rotten apple.

Would-be Suicide: "Don't rescue me, I want to die."

Swimmer: "Well, you'll have to postpone that, I want a life-saving medal."—Technique.

You've got to do an old-fashioned waltz to navigate in those things.

PLAN NATIONAL SCHOLASTIC MEET

School Teams Will Gather Here in the Spring

The McGill Track Club will in all probability hold the first Canadian Inter-Scholastic track meet in Canada. At the recent meeting of the A. A. U. of Canada the first meet was awarded to Montreal for the spring of 1923, and will take the place, possibly, of the McGill inter-scholastic event which the track club runs each spring. The age limit for the juniors has been set by the A.A.A. as under eighteen, while the school boys running in the scholastic meet must be under nineteen. The records made will pass into the hands of the A.A.U. of Canada for approval, and will be kept as all the other records are. This meet is the development of the track event which the Red and White club has staged in the last few years, and is a step forward in the development of track men. The meet will be held in other parts of Canada in other years should sufficient interest be shown.

The fixing of a standard programme of events for the meet is now in the hands of a committee of the A.A.U., and without doubt will follow the plans which have been used at McGill in the past.

Manager Henry, of the Track Club, is in charge of the McGill meet, and the next meeting of the track club will in all probability change this meet to the championship event.

WIN FOR SCIENCE IN BASKETBALL

Science '26 Wins Easily from Commerce '24

The basketball game between Science '26 and Commerce '24 last night ended with a score of 16 to 6, with Commerce on the small end of the score.

The Science men easily outshot their opponents, Connor supplying four of their seven baskets. Ross gave Commerce two of their three baskets, and played an all-round good game.

In the first half of the game the Commerce men held Science to a 9 to 6 score. The teams seemed fairly well matched at this time.

However in the second half, the Commerce men slipped behind in the play, and Science placed three baskets to their one.

Only two fouls were called, those being shot for Science by Grannick and Connor, each adding one to the score.

On the whole the game was clean and fast. A few Science men were present to cheer their team to victory. The line-up was as follows:—

Commerce. Forwards. Science. F. Ross Burland
Armstrong Grannick

Centre. Goucher Fotos
Morton Mace

Guards. Griffin Pigot

Arts '24 SWAMPS COMM. '24, 5-1

Batting of Arts Big Feature of Game

Last evening in the gym of Baron Byng School Arts '24 won an easy victory over Com. '24 by a score of 5 to 1. Arts had it all the way through the five innings, although all their runs were scored in the first two innings when Commerce seemed to be considerably in the air, they tightened up a little but failed to score except in the third inning, when Stein scored the only run for Commerce of the game.

Commerce were short one man so the game was played with eight men, the uncertainty was too much for the Comm. team and when Sessenwein, the Arts pitcher, began doing tricks this uncertainty turned into utter rout in the second inning and although a last inning stand was attempted the game ended 5 to 1.

Good batting and Sessenwein's pitching were the causes of victory.

OTHER CAMPUSES

DARTMOUTH

A drive for funds for the purpose of feeding starving Russian students, at the rate of \$15 per head per annum, will be started on January 8th.

CALIFORNIA

Meetings took place recently between the students and the Faculty and Alumni to discuss the various ideas held as to the erection of dormitories and plans for financing the project.

WASHINGTON STATE COLLEGE

Plans for a new students' book store in the spring are rapidly taking form. The new building will provide for large expansion, and will have also a soda fountain and confectionery department.

OKLAHOMA

Investigations carried out recently showed that the sale of aspirin by campus shops does not exceed 20 tablets per day. Information shows that early morning is the usual time for swallowing the pill.

UNIV. OF CITY OF TOLEDO

Women students "borrowing" reserve books from the library shelves will in future be fined 25 cents a day for their infraction of the rules.

YALE

In the first of a series of debates in the Intercollegiate League held recently, Yale lost to both Dartmouth and Cornell.

INTERMED. AND JUNIORS WILL PLAY

Games to Take Place Tonight at North Branch "Y"

The final practice of the Intermediates and Junior "B" basketball squads before the games to-night, was held last night at Molson Hall. Coach Manley was in charge and gave the candidates for the teams a hard work out.

The Intermediate and Junior teams then played a 20-minute game, and the men were frequently changed. The Junior squad kept the Intermediates busy throughout the game. Capt. Woodhouse and Macdonald of the Juniors, showed up well, the latter being moved up to the Intermediate squad at the end of the practice. The men were then given more shooting practice, special attention being paid to shooting from under the basket. A fast passing practice, with five men on the floor at one time.

To-night both teams play at North Branch Y.M.C.A., the Junior game being at 8 o'clock, and the Intermediate at 9 o'clock. The members of the Junior team are asked to report at N. B. Y. M. C. A. at 7.30 p.m., and the Intermediates at 8.30. The teams for tomorrow night are:

Junior B: Woodhouse, Bustin, Burland, Ferguson, Grimson, Butler, Granik, Connor.

Intermediate B—Starke, Quackenbush, Davis, Cummings, Macdonald, Rapp, Shpritzer, Altner.

The Intermediates are playing their first league game to-night and should give a good account of themselves. They played a practice game at Macdonald College this week, losing by an 18-17 score. This was the first occasion that the men had played together, and with the development of team play that has taken place since they should win their first league match. The members of the team led by Capt. A. D. Starke, are all hard workers and can shoot and check well. The Juniors are playing their second game, having lost to Argos last Wednesday night. This game was also the first time that the Juniors had played together, as the men were selected the day before. The team put up a much better showing in the second half of the game, and have improved a great deal in team play.

The Junior vs. Crystal A. A. A. game which was scheduled for Wednesday night is to be played on Tuesday night, at the Peace Centennial School. The men are to meet at the corner of Isabau and St. Denis Sts. at 7.30 p.m., and take a St. Laurent car. The U. of M.-McGill Intermediate game was to be played on Wednesday also but arrangements are being made to play it on Tuesday.

Further particulars will be given at the regular practice on Monday at 5 p.m.

MANDOLIN CLUB PLAN TO PLAY AT SMOKER

In assisting at the B., W. & F. finals, the Mandolin Club will supply the musical end of the Smoker by playing during the intermission between bouts.

At the business meeting of the Club yesterday afternoon it was decided that the Club will not undertake a trip this year during the Christmas holidays, as last year did not prove a financial success. However, future engagements are being booked up after the Christmas exams. All members are asked to be present at 7.30 sharp Monday night at the Union, in order to have all instruments tuned up. A few more pictures are still to be had, and the executive would be glad if those who ordered them would obtain them before Thursday, as they desire to straighten their account with Notman's before the end of the year.

AT THE THEATRES

IMPERIAL

"Flashes" are generally bright and "Flashes from Songland" is not an exception. This vocal combination, to be heard at the Imperial next week, is of the very highest order, a quintette of mixed voices who delightfully render a fine song programme. The blending of the two sopranos, two tenors and a basso is most effective. Roger Gray & Company, with Eulalie Young, offer "The Traffic Cop," in which is infused quite a little of the musical comedy style of entertainment. In these days when all women from sixteen to sixty, like to be known as chickens, it is unusual to see a young actress taking middle aged women as a type of portrayal. This is what Alice Hamilton does. She depicts the old lady with such life-like color and so much honor that she succeeds in making her more likeable than a chicken. The Rose Revue is a terpsichorean oddity presented by two girls and a man. The trio is versatile and is composed of three of the most proficient dancers it would be possible to get together. The Rose Revue is handsomely staged. Larry Meehan and Gertrude Newman offer a likely singing, dancing, and talking skit well mounted with special scenery. They have a fine understanding of fun, and dance capably. Completing the bill is Alanson with his surprise comedy act, in which he prides himself on doing things differently.

Vera Gordon's latest picture "Your Best Friend," tells the story of a mother who gives and loves and sympathizes with her two sons. She does not ask forgiveness for their neglect, but rather endeavors to remain with them in spirit and feeling, when it's brightest, warmest or otherwise.

INTEREST CENTRES ON COMING DEBATE

Arts and Law on Government Railways

Interest in the forthcoming debate to be held on Tuesday evening next between Arts and Law is growing daily, and it is expected that even though it occurs so near the holidays, there will be a large number of supporters of both faculties present.

The subject: "Resolved, that the present system of Government Owned Railways in Canada should be abolished," is one that has occupied the minds of the governments of the Dominion for several years past now, and the railway problem may be said to be the most important question which comes before the House of Commons every session. The debate should therefore be productive of a great many telling arguments on both sides, and will no doubt be very closely contested. The Arts men are supporting the affirmative side, and the Lawyers the negative. The Arts team will be composed of G. H. Penrose, J. C. Everett and H. Wells, while the Lawyers will be represented by V. Barre, H. O'Hagan and S. D. Pierce.

The gentlemen acting as judges will be Dean Laing, Hon. A. K. Hugessen and W. H. Biggar. A. E. D. Tremaine will be in the chair.

SUNDAY SING TO HAVE A CHRISTMAS ASPECT

Special music and decorations suitable to the season are expected to give quite a Christmassy aspect to the Sing this Sunday evening, the last of this term.

The Convenors are very anxious to dispel any misapprehensions which may have arisen from the report of the Sing, two weeks ago. That report suggested that the Introduction Committee was superfluous and also said that students who came merely for the sake of the singing or the music, were not wanted. These statements were incorrect, due, no doubt, to the reporter's misunderstanding of the purpose of the Sing, which is to provide a pleasant hour for those who wish it, without being at all arbitrary. It is the earnest desire of the Committee in Charge that everyone be sociable, but no one should feel compelled to be introduced to anyone else, or that one should go to the Sing with that one object in view. The Introduction Committee is for the convenience of anyone who desires its services, but does not intend to force its attention on anyone. Those who wish to sing in solitary enjoyment are at perfect liberty to do so.

PLAN ERECTION OF MEMORIAL IN UNION

After a period of inactivity the Returned Undergraduates' Association held a short business meeting last evening. D. W. Ambridge the president, was in the chair. The main business was the disposal of the club's funds. After some discussion a committee, composed of Graham Ross, Cleland, and Tidmarsh, was elected to manage the coming activities of the Association. This committee was also instructed to purchase a memorial in honor of McGill men who fell in the service of their country. This memorial to be erected in the Union by the Returned Undergraduates' Association.

It was also decided to hold a Smoker in the near future and this may be the last official function of the club, as many of the members are graduating

MUSIC "UNDERGRAD" WILL HOLD FIRST MEETING

The Faculty of Music Undergraduate Society will hold its first meeting on Thursday evening, December 21st, in the Hall of the Conservatorium. Dr. Perrin has promised to speak, and a most attractive programme has been arranged by the committee, to which the Misses Anderson and Asner, and Messrs. Taylor and Sherrard will contribute. Refreshments will be served.

It is hoped that members of the Society will come and support the efforts of the Executive and thus pave the way for many successful gatherings.

JUNIOR RESPONSIBLE FOR CRIMES IN U.S.

Basil Thomson Gives Opinions on Subject.

"What, in your opinion, is the chief cause of crime in the United States," was asked Sir Basil Thomson, famous criminologist and former head of Scotland Yard, yesterday afternoon shortly after his arrival here to speak in Hill Auditorium.

"The gun," replied Sir Basil. "In England with a population of 45,000,000 people there are but seven or eight capital punishments during a year. No policeman or criminal carries a gun. The policemen have a short thick stick, but use them seldom. The gun is a weak spot. You should make a universal restriction of the manufacture and sale of guns."

Sir Basil had just come from New York and from his knowledge of conditions there under the state law, pointed out the ineffectiveness of that measure in restricting the sale of firearms, for a man living in New York may go to New Jersey and secure a gun with relative ease.

The important cause of crime in this country, in the belief of Sir Basil, is our lack of dispatch in dealing with criminal law and court procedure, pointing out the differences between the American and English methods.

"In England a criminal can remain untried not more than three months, or he may be dealt with in a week. Appeals are made within three weeks. The greatest defect of your criminal law," he said, "is its uncertainty. The criminal feels that he has a sporting chance." A third factor assigned to our crime wave by Sir Basil was the habit of faster living which may be due to our more exhilarating climate. "When I first arrived in New York I noticed the high speed of traffic, that you drive faster. Then exchange of ideas is quicker here."

IGNORANT OR EDUCATED

Ask the college student to explain the Pythagorean theory and find out what he will tell you. Ask him to describe the method of reasoning which was used by Socrates. Ask him to prove Boyle's law in the laboratory. Examine him to find out what knowledge he has of Shakespearean drama. Ask him any of the thousand questions which the average college student should be able to answer, and you will find that the college student is a surprisingly informed young person.

But when you have completed the test of his knowledge, turn to the field of the current events. What does he know? In most cases you will be surprised and sometimes shocked to learn that his knowledge of events that are recorded in the newspapers every day is almost nil. Although he can tell you the whole history of the Trojan war and the wars of the Greeks, he will have to admit to you that he doesn't know that the Turks are now fighting over the city of Constantinople.

Ask him for the history of England under the reign of Alfred the Great and he will give it to you letter-perfect, but inquire of him concerning Lloyd George and he will more than likely tell you that he is the king of England.

And yet we call ourselves educated, broadminded people of the modern day. Draw your own conclusions.

—The Athenaeum.

Want—This place certainly turns out fine men.
Decartes—When did you graduate?
"Didn't graduate; they turned me out."—Notre Dame Juggler.

HOW FREE IS VERSE

"Like everything else," as Sophocles often remarked to Queen Elizabeth, verse is beginning to prick up its ears and to wonder whether it has a limit. But that's not all, some of us are beginning to wonder whether it hasn't a limit. Suppose you were on the editorial board of a conservative college weekly publication, and someone handed you the rare affair which we disclose below. The title is lacking. A poem that might be suggestive of Burlap bags and chickweed. No, I mean something else. Well, you might say of moist, warm potatoes Or codfish.

There! I have it—codfish!

A maiden standing on the beach,
And the waves breaking
Like eggs on a thick cup.
Blue, think of it!
Blue water-lilies!
Can you imagine anything paler
Or still more gorgeous?
But that is a long and thoughtfully worked out affair in comparison with the delicate bit which is supposed to stimulate the imagination for at least eighty more lines.
A crocodile which ate my wife
Oh, verse, whither goest thou?
What will be thy end?
As he said when he heard the walrus sing.
"There must be a limit to everything!"
